

People should _____.

When you give people free things you are lowering their _____ and increasing their _____.

_____ - Proper Intervention (an attempt to stop the bleeding)

_____ - Restore the individual to before there was crisis.

_____ - Move beyond where they were before

- Walking with a person across time to beyond where they were before.

Concern: Not most poor people will need relief and rehabilitation. Don't treat them that way. They are in the stage of _____.

If not careful:

We can create a system of _____ (Habitually doing for people, and providing for people, things they can do and provide for themselves.)

We get caught up in treating _____ rather than getting to the core issue of the _____ condition. That we all have.

So transformation starts in the _____, but it also sinks deeply into their _____ and ultimately into their _____.

Development Work

- It's the process that matters
- May result in product or a project
- It's just as much about _____ you do the work as _____ the work is.

Goal: To restore relationships with God, Self, Others, and the Rest of Creation.

1. Only go if you are _____ to go by the people there.
2. Once you get there: Ask what do you want us to do?
3. Then Ask How we should do it?
4. Stay focused on _____. Even if doesn't make sense.
5. Success is determined by restoration of _____.

FOCUS ON THE PROCESS!!
